Sl. No.	Section No. and Page No.	As per RFP	Pre-Bid Clarification Query	CMGI's Response
2	8.9. Technical Evaluation Page-24 Point-2	The bidder should have experience in implementation of project covering Web-portal Development along with Dashboard Each project with minimum value of Rupees 4 (four) Crores will get 1 (one) mark Ten projects having value of more than 4 Crores will get 10 marks (@ 1 mark per project). On bidder will get maximum 10 marks although having implemented more than 10 projects having value of more than 4 Crores each.	We kindly request you to amend the clause by suitably relaxing the requirement of 10 projects, each having a minimum value of ₹4 Crores. It is requested that the evaluation criteria may instead consider the cumulative value of eligible projects and allow projects of comparable nature with lower individual project values. This will ensure wider participation and enable experienced bidders with proven technical capabilities and relevant project experience to participate in the tender.	1) Each Project having value of Rs.4 crores or more : 2 marks; 2) Each Project having value of Rs.1.5 crores or more : 1 mark (However maximum marks in this section is 10
3	8.9. Technical Evaluation Page-25 Point-4	The Bidder should have a registered office in India and operational branch offices. Registered Office in India with minimum 10 years existence.- 2 Marks Five (5) or more operational branch offices in India-3 Marks	The evaluation criteria award marks based on the bidder having a registered office in India with a minimum of 10 years of existence and five (5) or more operational branch offices across India. We kindly request you to clarify the rationale for assigning technical evaluation marks based on the number of branch offices across India. Since the scope of work under this tender is limited to the State of Odisha, we request that the criteria be revised to consider the bidder's presence within Odisha, as this would be more relevant to the successful execution of the project.	Bidder having Global Presence : 5 Marks Bidder having Presence in one place in India : 4 Marks Bidder having Presence in Odisha and in one place outside Odia : 5 Marks Bidder having Presence only in Odisha : 4 Marks

19-09-2026

Pre-Bid Queries**RFP- Technical Consultancy Services for the Redesign and Redevelopment of HRMS Odisha from Monolithic to Micro services Architecture to Support CMGI's In-House Development Team****Tender No: CMGI/PCU/MICROSERVICE/2026/911/1327, Date: 05.09.2026****Name of the Bidder: E Square System & Technologies Pvt. Ltd.**

Sl. No.	RFP Clause/Section	Existing Clause	Query/Clarification/Modification Requested	CMGI's Response
1	Deliverables, Pg. No. 13	Completion of Core Functional Modules & All Modules	For Required for effort estimation and commercial bid preparation, please specify whether module development will be executed by CMGI's in-house team, jointly with the consultant, or entirely by the selected bidder.	Please check the tender document on Objective of the Assignment (Development activities shall be jointly executed with CMGI's in-house team.)
2	8.8. Pre-Eligibility Qualification (pt. no. 6), Pg no. 21	Project Experience: At least three Work Orders/Completion Certificates having minimum value of Rupees 4 (four) Crores each. The Bidder should have successfully developed and implemented at least three of the following numbers of governance project during the last 5 years for any state/central PSU/Reputed Private Organization in India. E-Governance Application should include all below mentioned components. ☒ Web Portal Development ☒ Mobile Application Development ☒ Dashboard along with MIS reports	We would request to modify the clause as: Project Experience: At least Work Orders/Completion Certificates having minimum value of Rupees 1 (one) Crores. The Bidder should have successfully developed and implemented at least one/more of the following numbers of e-governance project during the last 5 years for any state/centre/PSU in India. E-Governance Application should include all below mentioned components. 1. Web Portal Development 2. Mobile Application Development 3. Dashboard along with MIS reports One project of INR 2 Crores; OR Two projects each of value of INR 1.25 Crores; OR Three projects each of minimum value of INR 1 Crores The proposed modification is respectfully requested to ensure proportionality, wider participation and fair competition, while retaining the required e-Governance experience. It provides flexibility to bidders with proven experience through one or multiple projects, enabling participation of technically capable bidders and promoting competitive and value-driven procurement.	The bidder should have experience of executing at least five(5) Projects having value of Rs.1.5 crores each
3	8.8. Pre-Eligibility Qualification (pt. no. 7), Pg no. 21	The Bidder must have experience of having successfully executed project(s) using Microservices technology in any State or Central Government organizations/PSUs/Reputed Private organization during the last 5 (five) years in India, which shall be either of the following: i) Two similar completed Services of value not less than INR 1.5 Crores each OR ii) One similar completed Services of value not less than INR 3 Crore	Implementation of a Microservices architecture requires the same core technical competencies irrespective of whether it involves migration from a monolithic application or a greenfield development. Hence, considering proven Microservices implementation experience is sufficient to establish the bidder's technical capability while ensuring broader participation and competitive bidding. Hence, would request to modify the clause as: The Bidder must have experience of having successfully executed Microservices work in State or Central Government organizations/ PSUs / Private organization during the last 5 (five) years in India, which shall be either of the following: i) Three similar completed services of INR 1 Crore each; OR ii) Two similar completed services of INR 1.25 Crore each; OR iii) One similar completed of INR 2 Crores	Not accepted

19-09-2026

4	8.9. Technical Evaluation (pt. no. 2), Pg no. 23	The bidder should have experience in implementation of project covering Web-portal Development along with Dashboard Each project with minimum value of Rupees 4 (four) Crores will get 1 (one) mark Ten projects having value of more than 4 Crores will get 10 marks (@ 1 mark per project). On bidder will get maximum 10 marks although having implemented more than 10 projects having value of more than 4 Crores each.	We would request to modify the clause as: The bidder should have experience in implementation of project covering Web-portal Development along with Dashboard. i) Project value of INR 2 Crores or above- 2.5 marks for each project. ii) Project value of INR 1 Crore to INR 2 Crore- 2 mark for each project. The proposed modification is respectfully requested to ensure proportionality and wider competition, while maintaining the required experience in Web-Portal and Dashboard implementation. The revised criteria recognize substantial project experience through one higher-value project, with additional experience through smaller projects, thereby enabling participation of technically capable bidders and promoting fair, competitive and value-driven procurement.	1) Each Project having value of Rs.4 crores or more : 2 marks; 2) Each Project having value of Rs.1.5 crores or more : 1 mark However maximum marks in this section is 10
5	8.9. Technical Evaluation (pt. no. 3), Pg no. 24	The Bidder should have successfully executed Monolithic to Microservices Work for Government/PSU/Autonomous Bodies/Reputed Private Organizations during the last five (5) year. (5 similar project) Five Similar Projects out of which two projects should have been developed in Spring boot	We would request to modify the clause as: The Bidder should have successfully executed at least one project involving Microservices Architecture or Monolithic-to-Microservices Modernization for Government/PSU/Autonomous Bodies/Reputed Private Organizations during the last five (5) years. i) Projects with a value of ≥ INR 1 Crore each: 5 marks per project, subject to a maximum of 10 marks. ii) Projects with a value of INR 50 Lakhs to < INR 1 Crore each: 2.5 marks per project. The proposed modification is respectfully requested to broaden participation while retaining the core technical requirement. Recognizing proven Microservices Architecture experience alongside Monolithic-to-Microservices modernization will enable participation of technically competent and experienced bidders, thereby promoting fair competition and value-driven procurement.	The Bidder should have successfully executed Microservices Work for Government / PSU / Autonomous Bodies/Reputed Private Organizations during the last five (5) years.
6	Existing Source Code	Not Mentioned	Kindly confirm whether complete source code, technical documentation, ER diagrams, API documentation, deployment scripts and database schema shall be provided to the selected bidder by CMGI. Since, it is essential for architecture assessment and migration planning.	The existing technical documentation and API documentation, wherever available, shall be shared with the Selected Bidder by CMGI to facilitate architecture assessment and migration planning. The Selected Bidder shall prepare/update the required Technical Documentation and API Documentation in consultation and coordination with CMGI's IT Team.
7	Infrastructure Access	Not specified	For architecture review and code analysis, requested to clarify whether consultants will receive VPN access, repository access, database access, staging environment and DevOps pipeline access.	Further details shall be provided after receiving the work order to selected vendor.
8	Database Modernization	PostgreSQL	Modern microservice architecture may require multiple persistence models. Hence, request to clarify whether database sharding, CQRS, Event Sourcing and Polyglot Persistence may be proposed wherever required.	Yes. The Selected Bidder may propose and implement appropriate modern persistence and data-management approaches, including Database Sharding, CQRS, Event Sourcing and Polyglot Persistence, wherever technically justified and required based on the identified architectural, scalability, performance, availability and data-management requirements.

19-09-2026

9	External Integrations	Multiple integrations	Kindly provide approximate number of integrations along with interface types (REST/SOA/File/SFTP/Web Services).	The approximate number of integrations and their respective interface types (REST/SOA/File/SFTP/Web Services, etc.) are not readily available with CMGI at this stage.
10	Existing Performance Baseline	Not specified	Kindly provide current transaction volume, concurrent users, TPS, peak payroll load and response time benchmarks. Since, it is required for defining target architecture.	The Selected Bidder shall assess the existing HRMS application, infrastructure, database and application usage patterns in consultation with CMGI's IT Team and identify the relevant transaction volumes, concurrency levels, peak loads and performance parameters.
11	Cloud Readiness	Cloud Ready Architecture	Kindly clarify whether deployment is expected on State Data Centre only or future cloud deployment should also be considered.	State Data Center but in future there is a scope to cloud deployment
12	10.8 Payment Terms, Pg. No. 28	Sl. No. 10, 11, 12, 14 etc. Note: The vendor will provide support and maintenance for a period of 6 months after successfully handover of the above work. The final payment (30%) shall be released after certification by the technical committee of CMGI.	We respectfully request CMGI to kindly review the milestone-based payment terms, as certain milestones—particularly Sl. Nos. 10, 11, 12, 14 and similar activities—appear to be dependent on CMGI's internal activities, approvals or technical inputs that may not be entirely within the bidder's control. We therefore request that the payment milestones be aligned primarily with the deliverables and responsibilities contractually assigned to the selected bidder, rather than being contingent upon CMGI-dependent activities. This would ensure fair risk allocation, greater payment predictability, minimize delays arising from dependencies beyond the bidder's control, and facilitate timely and seamless project execution. Accordingly, we humbly request CMGI to suitably revise the payment milestones to ensure that payments are linked to clearly defined and objectively measurable bidder-owned deliverables, with CMGI-dependent activities/approvals treated separately.	Total Project duration is 2 years (24 months). Please refer Enclosure : I in this regard.
13	10.9 Penalty, Pg. No. 28	1. There will be penalty of 1% on the order value if the work is delayed by one month (30 days) from the stipulated date of submission. 2. If the work is delayed more than 3 months from the stipulated date of submission, then the order will be cancelled and the agency will be blacklisted by CMGI.	We respectfully request CMGI to kindly review the penalty provision, particularly the absence of an overall cap on cumulative penalties. To ensure proportionate risk allocation and balanced contractual terms, we request that the maximum cumulative penalty be capped at 5% of the total contract value. Further, delays arising from CMGI-side dependencies, including approvals, feedback, data/information availability, infrastructure/access, or other client-side dependencies, may kindly be excluded from the computation of delay and applicable penalty, as such factors are beyond the bidder's reasonable control. Accordingly, we humbly request CMGI to suitably modify the clause by capping the cumulative penalty at 5% of the total contract value and excluding CMGI-attributable delays from the penalty computation. This would ensure fair risk allocation and facilitate effective and timely project execution.	No Change
14	1. Introduction/ Fact Sheets. 10.8. Payment Terms	Project duration- 1 Year Note: The vendor will provide support and maintenance for a period of 6 months after successfully handover of the above work.	Different sections mention one year and one-and-half year contract. Kindly clarify actual project duration.	Payment will be released periodically during the project duration of two years. Please refer Enclosure : II in this regard.

19-09-2026

15	1. Introduction/ Fact Sheets.(Project Duration) Performance Bank Guarantee (pg. no. 17), pt. no. (a)	12 Months a. The Performance Bank Guarantee shall remain valid for a period of 20 (Twenty) months from the date of execution of the agreement.	Different clauses specify different PBG validity periods. Kindly clarify applicable duration.	Validity of Performance Bank Guarantee shall be 27 months
16	1. Introduction/ Fact Sheets. 8.8. Pre-Eligibility Qualification (pt. no.11), Page 20	Tender Fee: ₹10,000 Tender Paper Cost: Rs.10,000/-	It is assumed that Tender Fee & Tender Paper cost are same and we as bidder need to pay only Rs. 10,000/- as Tender cost/Tender paper cost. Kindly confirm if our understanding is correct	Tender Fee & Tender Paper cost are same
17	8.11. Final Combined Evaluation Process (pg. no. 24)	The Technical and Financial Bid shall be evaluated separately. Tendering evaluation shall be done on marks scored by the Bidder on both Technical and Financial bid. The weight age for Technical Bid is 65% whereas the weightage for Financial Bid is 35%.	The proposed revision to a 70:30 (Technical: Financial) evaluation ratio will place greater emphasis on technical competence, solution quality, and implementation capability, which are critical for the successful execution of the project. A higher technical weightage ensures the selection of the most technically qualified bidder while maintaining adequate consideration for commercial competitiveness.	No Change. Its 65:35
18	General	NA	Please clarify that the rest of the development resource other than three (3) resources as asked in the RFP will be provided by CMGI	CMGI will provide experienced and domain-specific Software Engineers from its in-house technical team to work jointly with the Selected Bidder for successful completion of the project. For further details regarding the roles, responsibilities, resources and scope of work of CMGI and the Selected Bidder, the bidder may refer to the Tender Document.
19	General	NA	Please clarify that the database design and data migration from existing system will be provided by CMGI	Jointly

Prebid Queries of M/s Sigma eSolution Private Limited

RFP Clause/Section	Page No.	Description	Clarification / Queries	CMGI's Response
8.8. Pre-Eligibility Qualification (Point no. 6),	22	The Bidder should have successfully developed and implemented at least three of the following numbers of e governance project during the last 5 years for any state/ central PSU/ Reputed Private Organization in India. E-Governance Application should include all below mentioned components. .Web Portal Development .Mobile Application Development .Dashboard along with MIS reports	The existing criteria may limit the participation of experienced and technically competent bidders. To promote wider participation, healthy competition and proportionality in the eligibility criteria, in accordance with applicable public procurement principles and provisions of OGFR 2023, it is requested that the clause may kindly be modified as follows: Proposed Modified Clause: The bidder must have successfully executed similar projects during the last five (5) financial years preceding the bid submission date, meeting any one of the following criteria: Three (3) similar completed works, each costing not less than ₹1.00 Crore; OR Two (2) similar completed works, each costing not less than ₹1.25 Crore; OR One (1) similar completed work, costing not less than ₹2.00 Crore. The proposed modification will enable participation of bidders having demonstrated experience in successfully executing projects of significant value, while maintaining an appropriate threshold for assessing their capability. This will also promote wider participation, fair competition and value for money in the procurement process.	The bidder should have experience of executing at least five(5) Projects having value of Rs.1.5 crores each

 19-09-2026

8.8. Pre-Eligibility Qualification (Point no. 7)	22	The Bidder must have experience of having successfully executed project(s) using Microservices technology in any State or Central Government organizations / PSUs / Reputed Private organization during the last 5 (five) years in India, which shall be either of the following: i) Two similar completed Services of value not less than INR 1.5 Crores each OR ii) One similar completed Services	It is requested that Clause 8.8 may kindly be reviewed and suitably modified to ensure a proportionate eligibility requirement, wider participation and healthy competition, in accordance with OGFR 2023 and applicable public procurement principles. Proposed Modified Clause: The Bidder must have successfully executed similar IT software/system development project(s) for any State Government/Central Government organization, PSU or Reputed Private Organization in India during the last five (5) financial years preceding the bid submission date, meeting any one of the following criteria: Three (3) similar completed services, each costing not less than ₹1.00 Crore; OR Two (2) similar completed services, each costing not less than ₹1.25 Crore; OR One (1) similar completed service, costing not less than ₹2.00 Crore. The proposed modification provides flexibility while retaining a substantial project-value threshold to establish the bidder's relevant experience and capability. It will facilitate wider participation of qualified bidders, fair competition and value for money, without compromising the requirement for demonstrated experience in successfully executing similar IT projects.	No change
---	----	--	---	-----------

19.09.2026

8.9. Technical Evaluation (pt. no. 2)	24	The bidder should have experience in implementation of project covering Web-portal Development along with Dashboard Each project with minimum value of Rupees 4 (four) Crores will get 1 (one) mark Ten projects having value of more than 4 Crores will get 10 marks (@ 1 mark per project). On bidder will get maximum 10 marks although having implemented more than 10 projects having value of more than 4 Crores each.	The existing project value threshold may be considered disproportionate and could restrict participation of qualified bidders. It is requested that the criteria may kindly be revised to ensure proportionality, transparency, non-discrimination and wider participation, in line with the principles of OGFR 2023. Proposed Modified Criteria: The bidder shall demonstrate experience in successfully implementing Web Portal Development along with Dashboard projects for Government Departments/PSUs/Reputed Private Organizations in India during the last five (5) financial years. Projects costing ₹2.00 Crore or above – 2 marks per project Projects costing ₹1.00 Crore to less than ₹2.00 Crore – 1 mark per project Maximum Marks under this criterion: 10 Marks	1) Each Project having value of Rs.4 crores or more : 2 marks; 2) Each Project having value of Rs.1.5 crores or more : 1 mark However maximum marks in this section is 10

19.09.2026

8.9. Technical Evaluation (pt. no. 3)	24	The Bidder should have successfully executed Monolithic to Microservices Work for Government/PSU/Autonomous Bodies during the last five (5) years. Five Similar Projects out of which two projects should have been developed in Spring boot	The existing criteria may be considered technology-specific and could restrict participation by creating an undue framework/technology preference. It is therefore requested that the criteria may kindly be revised to ensure technology neutrality, wider participation and fair competition, while retaining adequate assessment of relevant Microservices experience. Proposed Modified Clause: The Bidder must demonstrate experience in successfully executing projects involving Microservices Architecture and/or Monolithic-to-Microservices Modernization for Government Departments/PSUs/Autonomous Bodies/Reputed Private Organizations in India during the last five (5) financial years. Projects costing ₹1.00 Crore or above each – 2.5 marks per project, subject to a maximum of 10 marks. Projects costing ₹50 Lakhs to less than ₹1.00 Crore each – 1.5 marks per project. Projects implemented using Microservices architecture with any standard, industry-accepted technology/framework or equivalent technology shall be considered eligible. No specific framework or technology shall be mandated for qualification.	The Bidder should have successfully executed Microservices Work for Government / PSU / Autonomous Bodies/Reputed Private Organizations during the last five (5) years.
8.9. Technical Evaluation (pt. no. 4)	25	The Bidder should have a registered office in India and operational branch offices. Registered Office in India with minimum 10 years existence-2 Marks Five (5) or more operational branch offices in India-3 Marks	Requesting to modify the clause as below : The Bidder should have a registered office in Odisha and operational branch offices. Registered Office in Odisha with minimum 10 years existence-2 Marks Four (4) or more operational branch offices in India-3 marks The requirement of an operational presence in Odisha will ensure better coordination, faster response and effective onsite support during project implementation, while avoiding a restrictive requirement based on the bidder's age or number of offices across India.	Bidder having Global Presence : 5 Marks Bidder having Presence in one place in India : 4 Marks Bidder having Presence in Odisha and in one place outside Odisha : 5 Marks Bidder having Presence only in Odisha : 4 Marks

Tender Title			Technical Consultancy Services for the Redesign and Redevelopment of HRMS		
RFP No.			CMGI/PCU/MICROSERVICE/2026/911/1327		
Bidder Name			Tatwa Technologies Limited		
Sl. No.	Clause / Point	Existing Tender Provision	Requested Amendment	Justification	CMGI's Response
1	Clause 8.8 – Point No. 6: Project Experience	The Bidder should have successfully developed and implemented at least three of the following numbers of e-governance project during the last 5 years for any state/ central PSU/ Reputed Private Organization in India. E-Governance Application should include all below mentioned components. ☐ Web Portal Development ☐ Mobile Application Development ☐ Dashboard along with MIS reports	We request the Authority to kindly reduce the minimum project value from ₹4 Crores to ₹1.5 Crores per project, while retaining the requirement of three (3) projects with all the specified components.	The requirement of three successfully implemented e-Governance projects covering Web Portal, Mobile Application, Dashboard and MIS Reports already demonstrates substantial relevant experience and technical capability. Reducing the threshold to ₹1.5 Crores will encourage wider participation of experienced and technically competent bidders while maintaining adequate qualification standards.	The bidder should have experience of executing at least five(5) Projects having value of Rs.1.5 crores each
2	Clause 8.8 – Point No. 7: Similar Work Experience	The Bidder must have experience of having successfully executed project(s) using Microservices technology in any State or Central Government organizations / PSUs / Reputed Private organization during the last 5 (five) years in India, which shall be either of the following: i) Two similar completed Services of value not less than INR 1.5 Crores each OR ii) One similar completed Services	We request the Authority to kindly provide the value of One similar completed Services which is not given in the RFP.		The value of One similar completed Services is 3 Crores.
3	Technical Evaluation – Point No. 2: Experience in Web Portal Development with Dashboard	The bidder should have experience in implementation of project covering Web-portal Development along with Dashboard Each project with minimum value of Rupees 4 (four) Crores will get 1 (one) mark Ten projects having value of more than 4 Crores will get 10 marks (@ 1 mark per project). On bidder will get maximum 10 marks although having implemented more than 10 projects having value of more than 4 Crores each.	We request the Authority to kindly revise the project value criterion from ₹4 Crores to ₹1.5 Crores and consider five (5) work orders/projects	The proposed criterion will recognize bidders having demonstrated experience in successfully implementing Web Portal and Dashboard projects of ₹1.5 Crores or above. This will provide a fair opportunity to technically capable bidders with relevant experience and promote wider competition without compromising the quality and relevance of experience	1) Each Project having value of Rs.4 crores or more : 2 marks; 2) Each Project having value of Rs.1.5 crores or more : 1 mark However maximum marks in this section is 10
4	Technical Evaluation – Point No. 3: Monolithic to Microservices Work	The Bidder should have successfully executed Monolithic to Microservices Work for Government / PSU / Autonomous Bodies/Reputed Private Organizations during the		Experience in four successfully executed Monolithic to Microservices projects would provide sufficient evidence of the bidder's practical capability in migration, redesign and implementation of microservices architecture. This will also promote participation from bidders having relevant and proven technical expertise.	The Bidder should have successfully executed Microservices Work for Government / PSU / Autonomous Bodies/Reputed Private Organizations during the last five (5) years.
